

CDC Competitive Event Notes 2013

With the exception of the Most Professional School event, the Competitive Event Manual and events have not changed from last year. Below are notes regarding competitive events:

Freshmen will once again be allowed to submit posters. We will again allow freshmen JMG students to submit a poster for pre-conference competition. Like other grades, two posters will be allowed per school. Therefore, if you submit the maximum number of posters allowed, you would have two posters from each grade (senior, junior, sophomore, freshmen) for a total of eight posters.

Pre-Conference competitive event entries must be postmarked on time! Because it is important in the career world to meet deadlines, we will be instituting a late-entry policy regarding pre-conference competitive event entries: **if an entry is postmarked after the deadline of March 29, the entry will lose 2 points off its combined score.** Most events have 3 judges with 100 points each to give (total of 300 points), so this may not seem like much; however, the top places are typically only separated by a few points. Additionally, **once materials have been submitted to the judges, no more entries for that event will be accepted.** Typically competitive event materials are judged the second week after the deadline (this year beginning April 9); no entries will be accepted after this point.

CDC Competitive Events Additional Registration Forms

Chapter Banner
Poster/Slogan
Individual Civic Activities
Telephone Techniques

If you have students competing in these events, please make sure to submit the additional required form. Copies of forms follow and are also available in your Competitive Event Manual.
